Red Rhino 5000 Mini Crusher

Why have your waste material removed from site to then haul in crushed material? It costs both ways!

Hire in the Red Rhino Mini Crusher and crush your waste material on site. Not only will this save you money but on-site recycling saves the environment too!

The Red Rhino can be supplied on a self-drive basis (instruction must be received upon delivery) or with an operator and a mini digger if required.

Output material can be easily adjusted between 100mm and 10mm, depending upon your required size output can be up to 15 tonnes per hour

Technical Specifications:

- Crusher: single toggle jaw crusher, 14% manganese steel jaws
- Engine: Deutz 37hp water cooled diesel
- Fuel Consumption: approx. 3-4 litres per hour
- Chassis: hydraulic rubber tracks (umbilical cord tracking)
- Output: see overleaf
- Jaw Aperture: 500mm x 250mm
- Fuel capacity: 20 litres
- Output size: Hydraulic adjustment, choice of 10mm – 100mm
- Control system: umbilical cord tracking and manual hydraulic levers
